SUMMARY

Computer Science Engineering student specializing in IoT with minor in AIML. Experienced in Python, C, basic JAVA, MATLAB with hands-on exposure through online internships, hackathons and cloud certifications. Passionate about building practical technology solutions using data, AI and software development.

EXPERIENCE

C Programming Intern at Cognifyz Technologies

Sep 2025- Oct 2025

- Developed structured programs using queues, heaps, pointers, and arrays
- Strengthened understanding of data structures and memory management

Python Programming Intern at Codsoft

Oct 2025- Nov 2025

- Built modular Python applications and logic-based programs
- Practiced debugging and structured coding techniques

JAVA Programming Intern at CodeAlpha

Nov 2025- Dec 2025

- Developed basic object-oriented programs
 - Strengthened understanding of OOP concepts and program structure
-

EDUCATION

Bachelor of Technology in Computer Science Engineering (IoT)

July 2024-2028

Institute of Engineering & Management, Salt Lake, Kolkata

CGPA: 8.70 (till 3rd Semester)

Schooling

April 2010- May 2024

Pratt Memorial School

ADDITIONAL INFORMATION

- **Technical Skills:** Python, C, Basic JAVA, MATLAB, Problem Solving, Data Structures, Data Analytics, Generative AI
 - **Tools & Platforms:** Streamlit, Google Cloud, GitHub, Hugging Face
-

PROJECTS

Sentiment Analysis of Social Media Posts (Github: <https://github.com/sreetamasantra/Social-Media-Post-Sentiment-Analysis.git>)

Python, NLP, Scikit-Learn

- Built a machine learning pipeline to classify social media posts into positive, negative and neutral sentiments.
- Performed text preprocessing, stop-word removal, and TF-IDF feature extraction on tweet data.
- Trained a Logistic Regression classifier and evaluated performance using accuracy and classification metrics, and achieved ~68% sentiment classification accuracy on test data.

Smart Course Registration & Academic Planner System (Github: <https://github.com/IEM-Gurukul/term-ii-project-submission-sreetamasantra.git>)

JAVA, OOP

- Designed and implemented a system to manage course registration and academic planning for students.
- Applied object-oriented programming concepts such as classes, inheritance, and modular design.
- Implemented features for course selection, schedule tracking, and academic planning.

Students Performance Analysis Prediction Model (GitHub: <https://github.com/sreetamasantra/Students-Performance-Analysis-Prediction-Model.git>)

Python, Google Colab, NumPy, Scikit-learn

- Analyzed student performance and predicted scores using Regression analysis
- Visualized relationships between different features

Controllable Text Summarizer (Team Hackathon Project performed in IEM Hackoasis 2.0)

Python, Hugging Face, Generative AI, Streamlit, Gradio

- Built a controllable text summarization tool that provides summary for a given text piece and highlights keywords
- Applied Natural Language Processing techniques in a team environment

(GitHub: <https://github.com/sreetamasantra/Controllable-AI-Text-Summarizer.git>)

HACKATHONS

Winner- Blueprints of Tomorrow: Industry 5.0 Idea Hackathon (Team-based)

IEM Institute of Fundamental Research

- Proposed an Arduino-based waterbody garbage collector
- Developed the design of an IoT-driven concept for automated waste removal from water bodies

Participant- IEM Hackoasis 2.0 (Team-based)

Institute of Engineering & Management

- Built a controllable text summarizer using Python and Generative AI

CERTIFICATIONS

Coursera

- Introduction to Artificial Intelligence - IBM
- Python for Data Science, AI & Development- IBM
- Foundations of AI & Machine Learning- Microsoft
- Foundations of Data Analytics- Google
- Machine Learning Basics- Sungkyunkwan University
- Programming in C- University of Michigan
- Cyber Security Fundamentals- University of London

Cloud Certifications

Google Cloud Skills Boost

Google Cloud Computing Foundations:

- Cloud Computing Fundamentals
- Infrastructure in Google Cloud

Virtual Job Simulation

Tata- Generative AI Powered Data Analytics Job Simulation- The Forage
